

The following list identifies the addresses of Category 1 and 2 buildings (Earthquake-Prone, Dangerous & Insanitary Buildings Policy) in Hamilton where an engineers report has been received. Category 1 and 2 buildings have a specific timeframe by which strengthening must be completed, enabling building owners to plan and fund upgrading work.

Category 1 buildings are required to be upgraded by 31 March 2019 (within the next 8 years) and Category 2 buildings by 31 March 2030 (within the next 18 years).

A property listed as a Category 1 or 2 is also recorded on the property's Land Information Memorandum (LIM). For more specific information about any particular building we recommend you make application for a LIM on the property.
